Lodging and meals provided

Join us for the career development panels and speakers on Monday, June 10, 2024!

Travel funding available

The Justice, Equity, Diversity, and Inclusion (JEDI) Committee of the Western North American Region (WNAR) of the International Biometric Society is pleased to host the first WNAR Diversity Workshop.

The workshop will focus on connecting underrepresented students interested in quantitative areas with professional (bio)statisticians in academia, government, and industry. The target audience includes undergraduate and graduate students from historically underrepresented groups.

The workshop will feature:

- Hands-on computing activities and an introduction to programming in R
- Mentorship opportunities with graduate students and professional (bio)statisticians
- Information about undergraduate summer internships and research programs
- Educational sessions and networking opportunities

On Monday, the JEDI Committee encourages you to attend:

- Panel discussions highlighting experiences from graduate students and early career professionals focusing on career opportunities and advice
- Research presentations by graduate students
